

HOKKAIDO GOURMET STREET OPEN @Singapore, WAttention Plaza

The largest city in Hokkaido, Sapporo City is home to close to 2 million residents. Sapporo is blessed with more than just the conveniences of the city, but also easily accessible vast nature, fresh seafood, savory-looking confectionary – an epitome of what makes Hokkaido a “treasure of food”.

This time, we bring to you the pride of Hokkaido’s delicacies with the following seven restaurants selling only their best products at the heart of the west, Jurong Point Shopping Centre. The Hokkaido Gourmet Street will feature a large array of mouthwatering dishes at the WAttention Plaza, where more than 20 000 people pass by a day on average. A test marketing of the prices and tastes will be made during this event which will then be leveraged on to further future business in Singapore.

We hope to hear your valuable feedback as you come down and enjoy savory Hokkaido dishes.
