1 July 2017 (Sat) | 9am-5:30pm | Academia, Singapore General Hospital

Diet, Health and Aging

CME and CPE Points will be accredited -
Please register at Reception on event day

What is JSIP?

With Japan and Singapore both facing challenges posed by the rapidly aging population, JSIP actively promotes interaction and exchange of ideas between both countries on aging population issues.

Theme: "Diet, Health and Aging"

Along with a rapidly modernising world, the increase in the number of people affected by diseases caused by poor dietary habits, such as diabetes, has been on the rise and Singapore is no exception. In the upcoming symposium, dietary habits and the measures taken to manage diseases for both countries will be discussed and any concerns or queries will be explained with the latest evidences gathered from research of dietary patterns and health concerns.

Guest-of-Honour: Dr Amy Khor, Senior Minister of State, Ministry of Health Singapore

Special Guest: His Excellency Kenji Shinoda, Embassy of Japan in Singapore
