### ▼ Introduction ▼

“NIHONGO Starter (A1)” is an online course for non-native speakers of Japanese who are preparing to study in Japan. International students can learn basic Japanese in the course which takes up various topics and scenes that students will encounter when they stay in Japan. The main character is an international student at a science and technological university but the content is general so it also applies to those studying in other areas and the student's family too. Let's begin studying Japanese.
